2. Colleges, voordrachten en cursussen

Leiden

Moduli spaces and Arithmetic Geometry: celebrating FO80
Date: November 12th, 2015
Organizers: Ching-Li Chai, Ben Moonen and Jaap Top.
On Thursday, November 12$^{th}$, there will be a special afternoon to celebrate
the 80th birthday of Frans Oort. There will be two lectures aimed at a broad
audience of mathematicians.
We are very honored to have:
**Aise Johan de Jong** (Columbia University, New York) and **Don Zagier** (MPI Bonn
and ICTP Trieste) as speakers this afternoon. Everyone interested is
cordially invited, but if you wish to attend, please register.
The afternoon will be concluded with a reception.
The talks are given in the De Sitterzaal (ground floor Oort building,
Niels Bohrweg 2, Leiden)
Schedule:
14:00 -- 15:00 Aise Johan de Jong (title TBA)
15:00 -- 15:30 coffee break
15:30 -- 16:30 Don Zagier (title TBA)
16:30 -- 18:00 reception in front of the De Sitterzaal
This special afternoon is part of the Lorentz workshop Moduli spaces and
Arithmetic Geometry that is held from 9 till 13 November.
Due to an overwhelming interest in this workshop, it is no longer possible
to register as a participant, though it is possible to attend individual
lectures.

Lunteren

15$^{th}$ Winter school on Mathematical Finance
Date/location: 25$^{th}$ - 27$^{th}$ January, 2016, Congress Center "De Werelt"

Mini courses:
Two mini courses of 5 hours each will be delivered by

* Dirk Becherer (Humboldt-Universität zu Berlin)
* Fred Espen Benth (University of Oslo)

Special invited lectures:
The special invited lectures will be given by

* Nicole Bäuerle (Karlsruher Institut für Technologie)
* Sara Biagini (University of Pisa)
* Thorsten Schmidt (University of Freiburg)

Short lectures:
The short lectures will be given by

* Hailong Bao (Tilburg University)
* Tim Boonen (Universiteit van Amsterdam)
* Fei Cong (TU Delft)
* Asma Khedher (Universiteit van Amsterdam)

Poster presentations
Participants who would like to present a poster will be given this
opportunity. The precise format and scheduling of a poster session will be
decided on later, depending on the number of such participants. Participants
who want to present a poster are requested to contact the organizers.

Brochure and poster
All information about the time schedule, abstracts, and registration will
also be published in a brochure.

The deadline for applications is December 1$^{st}$, 2015.
Website.

Organisers
Hans Schumacher (Tilburg University) and Peter Spreij (Korteweg-de Vries
Institute for Mathematics, Universiteit van Amsterdam).

MPIM, Bonn

BICMR-HCM: Beijing meets Bonn
Date: November 2-3, 2015
Organizers: Xiaobo Liu (BICMR) and Pieter Moree (MPIM)
November 2-3 there will be a 2 day meeting at MPIM having 6 professors
from BICMR in Beijing. People wanting to do a postdoc in either BICMR or HCM
are encouraged to come to this meeting, as both postdoc programs will be
presented and you can come in contact with professors from these institutes.
The plan is to have 5 speakers from BICMR and 5 from HCM.
We have some funding. In case you want to be funded please send your CV
and a motivation why you want to attend the meeting to the following email.

In case you want to attend without funding it is also good
if you can let us know this.

Link for some further details

The purpose of this workshop is to enhance scientific exchange with the
German math community and also advertise the postdoc program at
BICMR (Beijing International Center for Mathematical Research).

Chinese participants.

1) Gang Tian  (Differential Geometry)
2) Xiaobo Liu (Symplectic geometry and Mathematical Physics)
3) Chenyang Xu (Algebraic Geometry)
4) Ruochun Liu (Number theory)
5) Bohan Fan  (Mathematical Physics)
6) Renjie Feng (Complex Geometry)  (reserve speaker)

Mathematicians working in Bonn and speaking:
1) Werner Ballmann (Differential Geometry, acting director starting Nov. 2)
2) Geordie Williamson (Representation theory)
further Bonn speakers TBA.
Schedule: TBA

*********************************************************************

3. Vacatures

1) RU

Dear colleagues,
A post-doc position will be available at Radboud Universiteit in Nijmegen,
under supervision of Maarten Solleveld. Starting date: 1 december 2015 (but
this is flexible) duration: one year, with the possibility to extend it
another year
The postdoc will be supported by the NWO Vidi-project "A Hecke algebra
approach to the local Langlands correspondence". Candidates must have a PhD
in mathematics, with a specialization in p-adic groups, Hecke algebras or a
related topic. The position involves a small teaching load (20%).
For more information see the website or ask at this email.

Applications should include:
- cover letter
- CV
- research statement
- the names and contacts details of two mathematicians willing to write

a recommendation letter.
Applications can be submitted via the above website, until 30 September 2015.

Please feel free to forward this information to anyone who could be interested.`

2) Mathematical Sciences, Korea Advanced Institute Science and Technology (KAIST)

Dear colleagues,

My department head requested to pass around the following job ad for a

tenured/tenure track position

to anyone who may possibly know who might be interested in applying.
Website.

Most of the courses are taught in English in the university and Korean language proficiency is neither required nor considered. While it is my understanding that the department is eager to hire (a)(n) (algebraic) topologist(s) to fill the spaces of retiring topologists within a few years, any subject of mathematics is also considered.
Salary level for international faculty members is internationally competitive,(usually higher than the ones for domestic members) as far as I was told.
Jinhyun Park
