KWG Prize for PhD students, call for proposals

The BeNeLux Mathematical Congress 2016 will be held on March 22 and 23 at Science Park in Amsterdam. During the conference there will be lectures by six candidates for the PhD prize. The PhD prize award ceremony will be part of the closing ceremony of the conference. The winner of the award receives, besides the prestige attached to winning, a monetary reward of 1000 euro. The prize is made available by Bronstee.com .

This year the PhD prize competition will be open to PhD students from all universities in Belgium, The Netherlands, and Luxembourg. The selection committee consists of Arjeh Cohen, Jason Frank, Jan van Mill (chairman), Yvik Swan and Anton Thalmaier.

The procedure to select candidates is as follows: we ask thesis advisors to propose candidates to the selection committee. This can be done by sending an email with an extended abstract (one or two pages) and a short CV of each candidate to the following email address: kwg.phd.prize@gmail.com. The deadline for proposals is January 15, 2016.

The selection committee will then review the proposals and narrow down the list of candidates to six candidates who will be invited to give a presentation of 20 minutes at the BeNeLux Mathematical Congress 2016 on March 23 in the morning. Out of these six candidates the selection committee will then select the prize winner.

André Ran, chairman local organizing committee BeNeLux MC 2016,
on behalf of the PhD prize committee.

4. Vacature

Assistant Professors of Mathematics
Department of Mathematics
London School of Economics and Political Science

Salary is competitive with Departments at our peer institutions worldwide and not less than GBP 52,427 pa inclusive.

The Department of Mathematics at the LSE is on a growth trajectory and is seeking to appoint one or more career-track Assistant Professors to contribute to its further development. We invite applications from candidates with proven research ability in an area of mathematics that fits with the existing research strengths of the Department of Mathematics. We particularly welcome candidates working in Financial Mathematics or Mathematical Game Theory.

A successful candidate will have an established track-record of research at a level of international excellence, a completed PhD in a mathematical subject by September 2016, and a commitment to excellence in teaching. She or he will maintain an active programme of research and will contribute to the general work of the department, including the teaching of a range of mathematics courses.

The other criteria that will be used when shortlisting for this post can be found on the person specification, which is attached to this vacancy on LSE's online recruitment system.

In addition to a competitive salary, the benefits that come with this job include an occupational pension scheme, a research incentive scheme with personal reward options, generous research leave (sabbatical) entitlement, a collegial faculty environment and excellent support, training and development opportunities.

Shortlisted candidates will be invited to visit the School in February/March 2016.

Further information on the Department can be found [here](#)

To apply for this post, please go to the [website](#)

The closing date for receipt of applications is 15 January 2016 (23.59 UK time). We are unable to accept any late applications.
