- 2-9 Haarlem: Brouwer-lezingenmiddag met als sprekers o.a. prof. dr. D. van Dalen en prof. dr. A.H.G. Rinnooy Kan.
Plaats: Hodshonhuis van de Koninklijke Hollandsche Maatschappij der Wetenschappen
- 18/23-9 Bonn: 4th Heidelberg Laureate Forum
[Information](#), [email](#)
- 9-12 Amsterdam: One-day symposium "L.E.J. Brouwer, fifty years later"
Location: Amsterdam Science Park
The symposium is organized under auspices of the KWG.
Organizers: Dirk van Dalen, Jan Willem Klop, Jan van Mill and Geurt Jongbloed.

2. Colleges, voordrachten, cursussen

UU

1) Mini-workshop on Symplectic Geometry

Date: March 11th, 2016, university campus Uithof of Utrecht University

This mini-workshop is aimed at researchers, PhD students, and advanced master's students working in symplectic geometry and related areas. It is organized jointly with the Vrije Universiteit Amsterdam.

This is the third workshop that we are organizing. These mini-workshops take place biannually. The goal is to strengthen the symplectic community of the Netherlands and to connect it with abroad. Topics include Hamiltonian dynamics, the symplectic embedding question, holomorphic curves, and Floer homology.

The morning lectures will take place in the Buys Ballotgebouw (Princetonplein 5) in room BBG020 (ground floor). The afternoon lectures will take place in the same building in room BBG065 (ground floor). This building is located in the university campus Uithof of Utrecht University.

Organizers:

Oliver Fabert (VU Amsterdam), Fabian Ziltener (UU).

For any question please contact [Oliver Fabert](#) and [Fabian Ziltener](#).

Registration before March 3rd.

This mini-workshop is supported by the Universiteit Utrecht, the Vrije Universiteit Amsterdam, [NDNS+](#) and the [Geometry and Quantum Theory Cluster](#).

Speakers:

Claude Viterbo (ENS Paris)

Janko Latschev (Universität Hamburg)

Yaron Ostrover (Tel Aviv University)

Chris Wendl (University College London)

2) The Big Picture - Workshop on the occasion of Jan Stienstra's retirement

Date/time/location: Friday April 8th, 11-17 hr, 2016,

Rodezaal, [Ruppertgebouw](#), Uithof, Utrecht

Speakers:

Raf Bocklandt (UvA), Vasily Golyshev (Moscow), Anton Mellit (Trieste), Duco van Straten (Mainz).

Registration:

Participation in this symposium is open and free to all interested, but registration is required.

Please register by sending an [email](#) as soon as possible.

Mention in this email "JS65".

Lunch (Yes or No; Also, if you have special dietary requirements, please let us know).

Organizers: Frits Beukers, Johan van de Leur, [website](#).

Berlin

7th European Congress of Mathematics (7ECM)

Date: July 18-22, 2016

The quadrennial Congress of the European Mathematical Society, organized by the German Mathematical Society (DMV), the International Association of Applied Mathematics and Mechanics (GAMM), the Research Center Matheon, the Einstein Center ECMath and the Berlin Mathematical School (BMS).

Speakers:

The Plenary and Invited Speakers were selected by the [7ECM Scientific Committee](#). We are happy to host the Abel Lecture, the Hirzebruch Lecture, a Public Lecture as well as a Next Generation Outreach Lecture. We are looking forward to welcoming all our speakers in 2016 at Technische Universität Berlin! For more detailed information about the program and registration see the [website](#).

Contact: Volker Mehrmann [Email](#)

3. Promoties

UU

17-2 João N. Mestre Fernandes da Silva, *Differentiable Stacks: Stratifications, Measures and Deformations*, promotor prof.dr. M.N. Crainic, Academiegebouw Domplein 29, 12.45 u.

22-2 Viktor N.E. Blåsjö, *Transcendental Curves in the Leibnizian Calculus*, promotor: prof.dr. J.P. Hogendijk, Academiegebouw Domplein 29, 16.15 u.

4. Vacature

The Faculty of Sciences, capacity group Mathematics and Statistics of Hasselt University, seeks a (m/f)

Tenured academic staff / Tenure track lecturer
Mathematical Analysis

Education task

The candidate will be in charge of courses in the direction of mathematical analysis, primarily in the bachelor of Mathematics. He/she will also teach service courses (general mathematical subjects) in various programs of UHasselt.

Research mission

The candidate will enforce the research capacity of the research group Dynamical Systems and broaden or deepen the existing expertise. The candidate's expertise has links with one or more research topics that are central in the research group, like singular perturbations, bifurcations, qualitative study of differential equations, convergent and divergent normal forms. Scientific collaboration in UHasselt and external collaboration is expected.

Further information and requirements can be found in the in the [Dutch announcement](#) of the vacancy at our website.
